## LORRIN THURSTON WRITES

CITY OF PEKING DETAINED TO ANSWER DISPATCHES.

Superintendent Gillfillan Breaks the Record in Discharging and Coal-ing the Big Liner.

Among the letters received in this city by the Mariposa was one from L. A. Thurston, written on the 20th. Mr. Thurston speaks encouragingly of the prospects of the annexation treaty coming up before the regular session and gives the names of 57 Senators who may be relied on to vote for it, 16 who are doubtful and 16 opposed to annexation. He also makes much of the fact that the New York Herald has come out strongly for annexation.

Probably the very latest dispatch received from Washington is one from L. A. Thurston to Welch & Co. of San Francisco, received just before the Mariposa left. It is dated June 24 and reads in part:

"Radical action by Japan in Honolulu may force immediate consideration of the Treaty. Otherwise indications are that it will go over to December."

"John D. and Oxnard still at work but we have every reason to be hopeful."

The expectation of receiving important dispatches by the Mariposa led the Government to arrange for the City of Peking to be held over so that immediate answers could be sent, as there is no regular mail for eighteen days. It was finally agreed that the big steamer should wait until 9 o'clock this morning for a compensation of \$1000, but it was an hour later before all the dispatches were ready and the vessel got away.

Superintendent Gillfillan of the Pacific Mail dock is entitled to great praise for the celerity with which he unloaded and coaled the Peking. Between 7 o'clock on Tuesday evening and the same hour of the following day 1710 tons of miscellaneous cargo was taken from her capacious hold and her bunkers were filled with coal enough to last her to San Francisco and three days longer. Altogether 160 men worked 24 hours without cessation except for meals in unloading and coaling the Peking, and she could have sailed on time last night if she had not been detained for the Mariposa's arrival. When orders were given to hold her till this morning an extra day's allowance of coal was put on board, which she will use in trying to make up the time lost in waiting.

## THE ANNEXATION TREATY.

Continued from 1st Page.

States nor to any existing treaty of the United States, shall remain in force until the Congress of the United States shall otherwise determine. Until legislation shall be enacted extending the United States' customs laws and regulations to the Hawaiian islands, the existing customs relations of the Hawaiian islands with the United States and other countries shall remain unchanged.

Article 4—The public debt of the republic of Hawaii, lawfully existing at the date of the ratification of this treaty, including the amounts due to depositors in the Hawaiian Postal Savings Bank, is hereby assumed by the Government of the United States, but the liability of the United States in this regard shall in no case exceed \$4,000,000. So long, however, as the existing Government and the present commercial relations of the Hawaiian islands are continued, as hereinbefore provided, said Government shall continue to pay the interest on said debt.

Article 5—There shall be no further immigration of Chinese into the Hawaiian islands, except upon such conditions as are now or may hereafter be allowed by the laws of the United States, and no Chinese, by reason of anything herein contained, shall be allowed to enter the United States from the Hawaiian islands.

Article 6—The President shall appoint five commissioners, at least two of whom shall be residents of the Hawaiian islands, who shall, as soon as reasonably practicable, recommend to Congress such legislation concerning the Territory of Hawaii as they shall deem necessary or proper.

Article 7—This treaty shall be ratified by the President of the United States, by and with the advice and consent of the Senate, on the one part, and by the President of the republic of Hawaii, with the consent and advice of the Senate, in accordance with the Constitution of the said republic, on the other, and the ratification hereof shall be exchanged at Washington as soon as possible.

In witness whereof the respective plenipotentiaries have signed the above articles and have hereunto affixed their seals.

Done in duplicate at the city of Washington this sixteenth day of June, one thousand eight hundred and ninety-seven.

JOHN SHERMAN,  
FRANCIS MARSH HATCH,  
LORRIN A. THURSTON,  
WILLIAM A. KINNEY.

## A Recent Guest.

In its notices of distinguished arrivals, the San Francisco Examiner of June 18 has this item:

"L. V. Redpath, a capitalist of Los Angeles, returned yesterday from a cruise among the South Sea Islands. He is at the California."

His cruise was of the privateering kind, broken by compulsory labor on the Honolulu roads.

## Novelties at Jordan's.

During his recent visit to New York Mr. Gus Murphy selected a very large stock of parasols and umbrellas for the store of E. W. Jordan. These are now on sale and are said to be superior to anything of the kind in the city.

At the same store will be found novelties in lace and bicycle pins, rabbit's feet charms, crepe paper for decorating purposes, paper fire balloons, English and American flags in silk, muslin and bunting, etc.

## Very Profitable Investment.

Whether it pays to raise your own chickens or not has been an open question among all who have attempted to keep poultry at a profit.

Many people keep a few chickens in order to have fresh eggs, fearing the consequences of purchasing from the markets.

## MAKES

The large percentage that die before the brooding age is reached discourages many and causes them to abandon the practice entirely.

But like every trade or occupation some are successful, and make money out of it. There is a reason for this, the remedy very simple, by investing 50 cents in a bottle of DETROIT IRON TONIC and DETROIT POULTRY POWDER you can likewise be successful.

## HENS

All successful poultry raisers use it. It makes the hens lay and produces flesh. Cures Cholera, Roup, etc. Nothing on the market like it. The investment will repay you ten fold.

## LAY.

The DETROIT IRON TONIC and POULTRY POWDER has entirely overcome the loss so many have suffered by the death of the fowls from one cause or another.

You need have no fears about raising chickens now.

## KINGSBURY

## PIANOS.

The construction is upon the most advanced principles of the Art of Piano manufacture; and no pains or expense have been spared to not only solidly construct, but to so apply the various parts that, besides their wonderful singing or tone-producing power, they would stand well in tune and in all climates. The qualities of these Pianos are Durability, Sweetness of Tone with great power, Singing or tone-carrying capacity, Evenness throughout the Scale, and Standing in Tune.

The "Eolian" Pedal, or "tone-muffler," is intended for the use of beginners and students of the Piano-Forte. By its use, one derives all the benefits of touch, while doing away with the noise or monotonous tone produced in the practice of scales, chords or chromatics, which is so annoying to the listener, and of no advantage to the performer. It also saves the hammers from unnecessary wear, thereby prolonging the life of the instrument for many years.

We are now offering these elegant Pianos on the most favorable terms. Parties contemplating purchasing a Piano will do well to investigate the merits of the "KINGSBURY."
